The pleasure of choice

urmet

URMET IS IN YOUR LIFE

For those who welcome the opportunity of choosing and matching every detail, even the audio and video door phone, with their own interior design style the Urmet portfolio now features four new ranges: four products designed with care for detail, using innovative materials, finishes and technologies for the needs of every home.

Classic, top-notch, and trendy: the ideal look can be chosen for every space to assert the good taste and character of your home right from the entrance.

urmet

folio

Technology meets design in a small, luxury object, placing the accent on high performance and care for details.

Jointly designed by Antonio Citterio and Toan Nguyen, Folio is the answer when you are looking for stylish, modern shapes and materials and innovative functions and commands all in one.

Folio: light, classic design housing today's technology.

- Dimensions: 148 x 70 x 54 mm (W x H x D)
- 3.5" colour screen with OSD (On Screen Display) functions and wide viewing angle
- Installation options:
 - flush-mounted (in ABS 4+4 box), protrudes by only 9 mm from the wall
- Full-duplex hands-free video door phone
- Can manage up to 31 intercom calls using the OSD menu
- Customisable button backlighting colour
- LEDs indicating automatic door opening on, audio on, door open and mute on
- Compatible with:
 - 2GO! 2-wire system

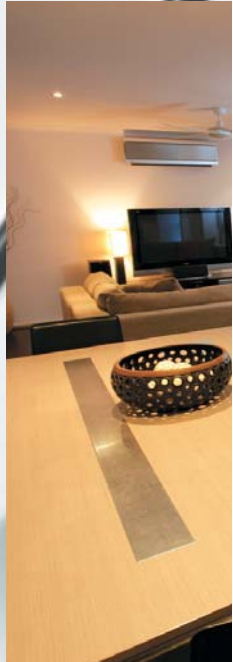

Coordinated
with Simon Urmet Nea Kàdra
wiring systems

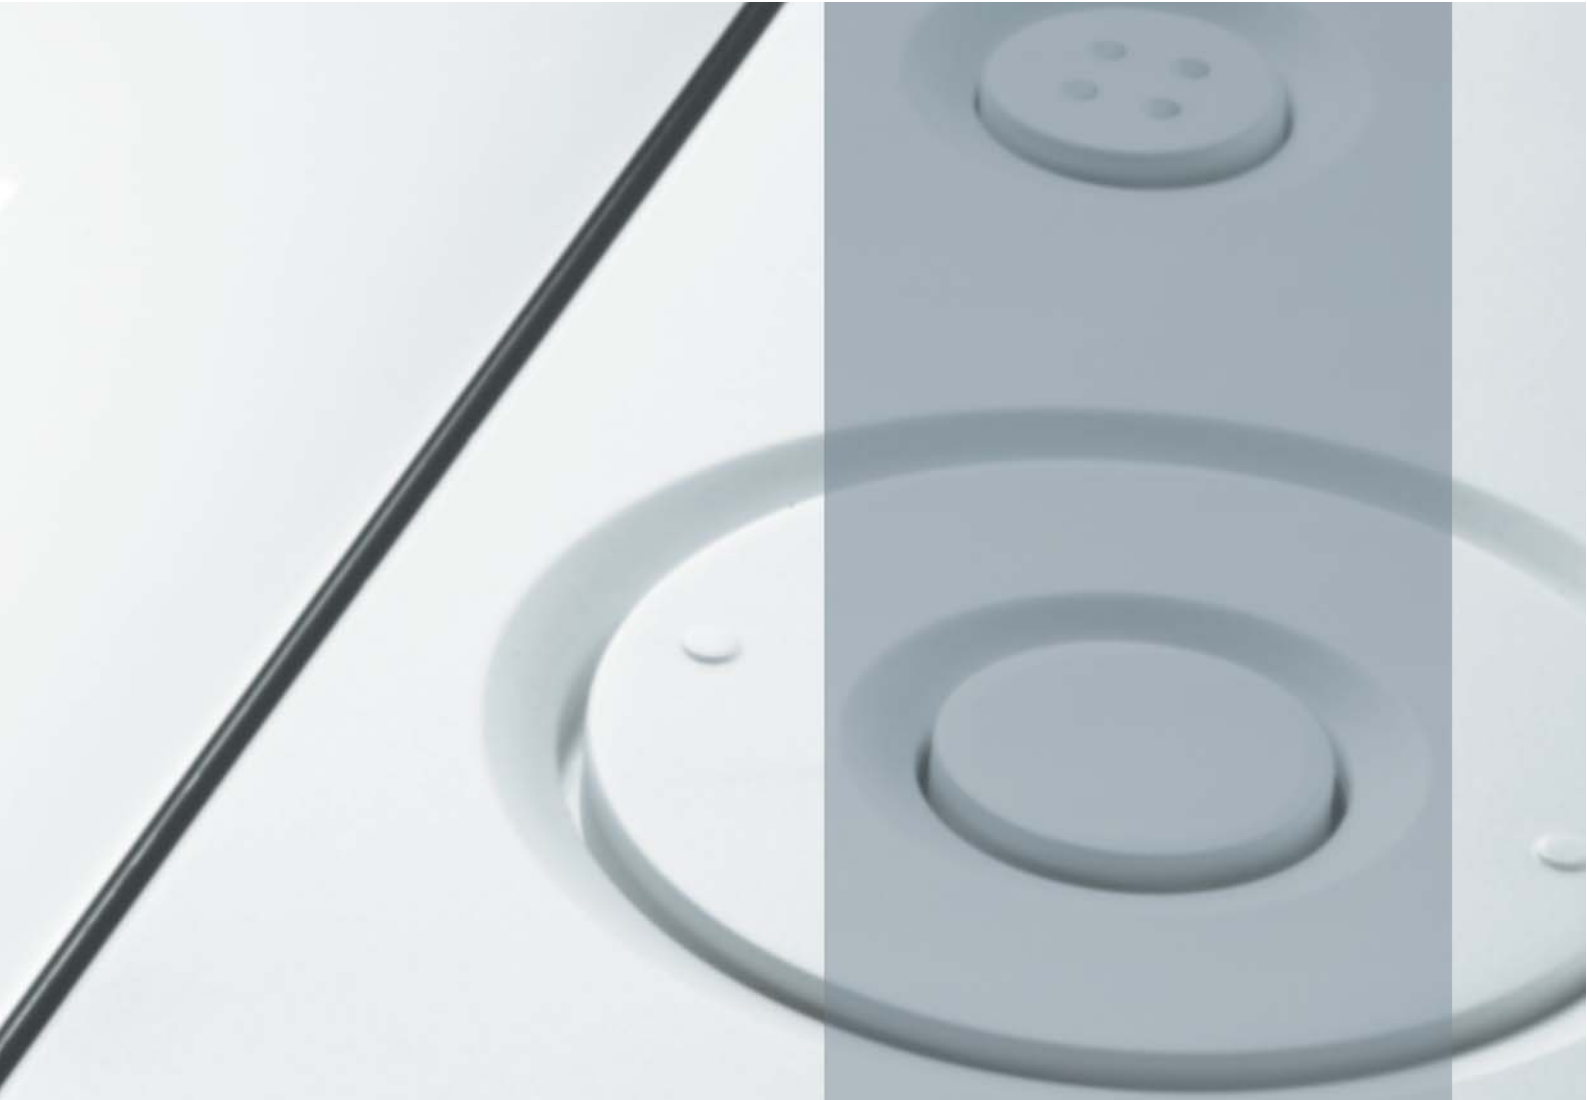

Imago

Imago:
give way to image, to a
look that makes a design and technology
statement. Buttons and auxiliary functions are all enclosed
in a streamline unit. The shiny black insert of the unit is
the distinctive element of a style that furnishes your home
with discretion and a touch of originality.

- Dimensions: 220 x 124 x 38 mm (W x H x D)
- 4" colour screen with OSD (On Screen Display) functions and wide viewing angle
- Installation options:
 - flush-mounted (with dedicated flush-mounting box)
 - wall-mounted
 - table mounted (using dedicated Plexiglas stand)
- Full-duplex hands-free video door phone
- Four buttons for supplementary services
- Red door open LED and green call LED
- Compatible with:
 - IPvoice
 - 2GO! 2-wire system
 - Digivoice
 - Coax

Transparent Plexiglas tabletop stand: design pure and simple

A streamline suggestion, a minimal outline designed by Antonio Citterio in team with Toan Nguyen: the perfectly flat surface blends into the total lack of edges, giving life to an extremely compact video door phone, which is the slimmest in its class.

Simple lines, and versatile finishes (three colours are available): shiny white, black and matte titanium. Meticulous design has a character of its own and is at home in the very best interior design.

VIDEO signo

- Small size: 205 x 225 x 50 mm (W x H x D)
- 4" colour LCD version
- Black and white version with 4.5" video module
- Installation options:

Transparent
Plexiglas table stand:
more prominence to Signo lines.
Available for the standard model
and for version with additional module.

AUDIO

Signo

A smooth surface: long, slim lines and minimum thickness: the Signo reinvents the door phone with a light, original shape. The care for detail is enhanced in three colour schemes: shiny white, black and classy titanium.

- Dimensions 85 x 225 x 42 mm (W x H x D)
- Installation options:
 - wall-mounted
 - table mounted
(using dedicated Plexiglas stand)
- Door opening button with “key” symbol
- Three buttons for supplementary services
- Special version with 10 buttons for intercom systems (white version only)
- Compatible with:
 - IPvoice
 - Bibus VOP
